Applicant(s)

MCLEOD ET AL.

Examiner

Mathieu D. Vargot

Art Unit

1732

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 08 January 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

1.The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 71 is rejected under 35 U.S.C. 102(b) as being anticipated by DeLisio et al (see col. 2, lines 9-11 and 19-20; Example 1) generally for reasons of record noting the following. While applicant is correct in stating that the film of the applied reference can be fabricated with one or more layers, the key word is **can**. In other words, while the reference teaches that other layers can be extruded or laminated to the film layer consisting of sPP, DeLisio et al also clearly teaches that these outer layers are optional. See the Abstract, line 3 (ie, “**Optionally**, the cast film has on at least one side...” ) and column 2, lines 20-21 (“film **can be** fabricated with one or more... **If** outer layers are used...”).(Bold facing has been added for emphasis.) Even if the example shows the formation of a multi-layered film, a reference is not limited to preferred embodiments, but must be evaluated for all it teaches, In re Boe, 148 USPQ 507. Given that DeLisio et al clearly indicates that outer layers are optional, the instant claim is anticipated.

2.The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 43-70 and 72 are rejected under 35 U.S.C. 103(a) as being unpatentable over DeLisio et al generally for reasons of record as noted in paragraph 1, supra and paragraph 2 of the previous action. New claim 72 is submitted to be obvious over the disclosure in DeLisio et al that the sPP film would have a melting point of "about 135 C or higher" (col. 2, line 14). Clearly, the instant recitation of "from about 125 C to less than 135 C" would be obvious over "about 135 C".

3. Applicant's arguments filed January 8, 2007 have been fully considered but they are not persuasive. Applicant submits that the applied reference does not teach casting a film consisting essentially of sPP. For reasons already noted, such is submitted to be in error. Applicant should realize that a reference is not limited to preferred embodiments, and DeLisio et al makes it clear on at least two occasions (Abstract, line 3 and column 2, lines 20-21) that the film does not have to have any additional layers.

**4. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mathieu D. Vargot whose telephone number is 571 272-1211. The examiner can normally be reached on Mon-Fri from 9 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Johnson, can be reached on 571 272-1176. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
